“Omela” LLC is a leader in the Ukrainian market for the production of packaging equipment and packaging materials.

We are a manufacturer of filling and packaging equipment and a supplier of equipment of world brands since 1995. We also provide service maintenance for used equipment, installation, commissioning, warranty and post-warranty service.

Having 25 years of experience in the market of Ukraine and far abroad, we have gained unique experience and knowledge. And now we can say with confidence that we have helped our clients get on the path of development and optimization of production processes. "Omela" LLC manufactures packaging equipment individually for each client. That is why we can offer modern equipment for any production - from the simplest sealing machine to full-cycle automatic lines.

On our website you will find equipment for different industries: lines for filling, packaging products, packaging in various types of bags (sachet, stick, pillow bag, gusset bag, stabilizer run, etc.), food production lines. We also manufacture and supply medical equipment, labeling equipment, conveyors, metal detectors, checkweighers, rotary tables, vibrating bins, dating equipment and much more.
